TIMELY ENVIRONMENTAL ANNOUNCEMENTS

MAY SPOTLIGHT

Design Lab Showcase

Over the past 7 weeks, teams of students worked to ideate and create solutions related to consumerism, transportation, food insecurity, and the USD community. In this culminating event, the teams presented their ideas to campus stakeholders:

"Environment is no one's property to destroy; it's everyone's responsibility to protect."

-MOHITH AGADI

Be Oatsome!

We hope you enjoyed the Oatmilk by Default Pilot project at Aromas! The pilot occurred in celebration of Earth Month (April) and oat milk will no longer be the default. We are proposing the oat milk default to be a permanent change at Aromas cafe. This would switch the default milk from dairy milk to oat milk at no additional cost. For more information about the benefits of oat milk, scan the QR code below.
